## Why “AND MEDICAL” BIOMEDICAL SERVICE TEAM???

- 1- We have qualified biomedical engineers who carry out regular calibration and periodic preventive maintenance Service of the medical devices.
- 2- We help healthcare facilities in achieving the highest standard of biomedical equipment performance
- 3- We are following the manufacturer recommendations for maintaining your medical equipment to save your money and less downtime and fewer liability issues.
- 4- Our Biomedical Engineers are expert for more than 20 years in conducting equipment maintenance and repair in accordance with the manufacturer’s standards.
- 5- We have professional central workshop ready for immediate support in any emergency case.
- 6- Quick response available at all times.
- 7- Flexibility : Quarterly and Yearly Biomedical Service Contracts, PPM for one time, inspection maintenance only ( IPM), one time maintenance for one machine or more, consultation service only.
- 8- For IPM activities, our Engineer typically has a detailed checklist to follow in order to record the results. Having such a checklist also serves as a reminder of each step in the IPM process and thus helps avoid skipping or overlooking specific steps.
